ALMA MATER

**“Living Years” by Mike & The
Mechanics
(Brandon Rubenstein)**

Every single summer
Tops the one before
And all of the memories
Keep us coming back for more
And though we are in love here
We go away all year
But we know its worth it
All our hopes and tears
We just wish that we could stay here, Golden Slipper
Camp

So many pos-tive moments
With no imperfect thoughts
Treasured conversations
And the friendships that we've got
Well now can't you feel it
It all seems so smart
The magic of Slipper, we hold it in our hearts
We all speak the same language
You know where it starts

(CHORUS)

Say it loud, say it clear
Slipper's with us through joy and the tears
It's too hard in July
To board the busses and to say goodbye

We remember all our friendships
Both the present and the past
They'll get stronger in the future
We are certain they will last
So don't forget we come back
In only ten short months
And all of the good times
Will come flooding back at once
Well if ya keep in touch and share the love
Slipper lasts all year
CHORUS (2X)

(THIS VERSE WAS

OMITTED FROM THE FINAL SONG)

We dread that last morning
When we have to go away
So pull aside your friends
And say all you want to say
So share some Slipper Spirit all throughout this year
It's that very thing that helps us through our fears
We just know that we will be back at this time next
year
CHORUS (2X)
